Beginning with an inquiry into the nature of wasp-paper, one question has led on to another, till the detached observations have insensibly grown into a continuous Natural History. I feel that I may point with entire satisfaction to the figures of the several species, of the excellency and accuracy of which Mr. Robinson's name is a guarantee to all Entomologists. And of the beautiful drawings of the nests, by my wife's pencil, I am sure that there can be but one opinion, in accordance with my own. The wood-engravings and graphotypes want the perfect finish which can only be given by a practised hand, but I must plead that they convey my meaning more exactly than an artist working at a distance could have expressed.
